

fatboy.

CANDYOFNIE FOR DUMMIES

Start here!

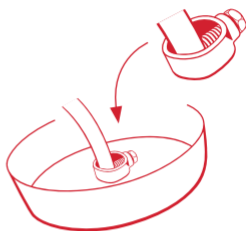

1. Thread the cable through the shades of your choice by using the included tool. (big sewing needle)

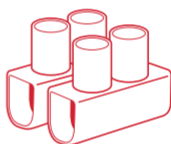

2. Twist in the lightbulb. Please mind the + and - marks as the light won't work when placed the wrong way.

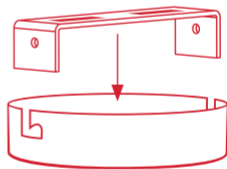

3. Mount the brace on the ceiling. (screws are not included)

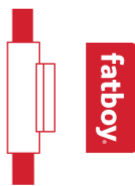

4. Slide the cover over the cable and determine the length of the cable by securing it with the included clamp.

5. Connect the cable to the electricity grid by using the included connector.

6. Attach the cover to the brace with two included screws.

7. Place the Fatboy logo on the wire using the clip-on mechanism. It's okay if you don't, you're still a Fatboy friend!

AND THIS IS JUST ONE OF 3.637.682.549.757.080 POSSIBILITIES. COLLECT THEM ALL!

YOUR CANDYOFNIE IS READY!
